

We need your voice!

Crafting a Responsive Community Investment Strategy for People with Disabilities in Northeast Ohio

Join National Disability Institute (NDI) in a discussion to bring awareness to the unique financial challenges individuals with disabilities and their families experience.

The information you share will help create strong partnerships to support financial empowerment and small-business investment for people with disabilities in Northeast Ohio.

We will ask participants to:

- ▶ Share what financial wellness and health means to individuals with disabilities.
- ▶ Share what community supports people with disabilities need to be more financially independent.

To compensate for your time and efforts, \$100 gift cards will be provided to all participants.
